

## New Sign Fund

Old Aging Signs = Old Aging Homes

Dear Homeowners of the Beagle Club,

We are all fortunate to live in such a desirable neighborhood. In order to keep our fine reputation and help maintain our property values, we are in urgent need of your help!

Hello, my name is Lisa Danowitz and I am a proud resident of the Beagle Club. As I'm sure you may have noticed, the signs at both of our entrances have not been looking so good. They are over 25 years old, and we've been advised that, since the wood is rotting, it is no longer feasible or cost-effective for them to be refurbished. Therefore, the time has come for them to be replaced.

Although there are over 400 families living here, shockingly, and sadly, we presently have only 186 contributing members! That's right -- more than half of the residents have chosen to **not** contribute anything, while the minority shoulders the burden to pay for the things from which we all benefit. Keeping in mind that the current annual membership fee of \$75 goes mainly toward landscaping and maintenance of the common areas within our neighborhood, replacement of the signs can only happen if we can raise additional funds in the amount of approximately \$25,000.

Therefore, in an effort to raise such funds, if you are not already a member of the Beagle Club Civic Association, we urge you to join this year. We also appeal to you to contribute whatever additional funds you can towards the New Sign Fund so that we may move ahead and retain the sign company to begin working on our new Beagle Club sign. I realize that, in the current climate, many of us may be in a tighter-than-usual financial situation, but please consider giving whatever you can. Something is better than nothing! I have been in contact with a few sign companies. Below are some preliminary, possible designs.
